

THREE PROBLEM-SOLVING STRATEGIES FOR MATHEMATICS AND FOR LIFE

WITH DR. RICHARD HOSHINO

Come hear Richard talk about his three favorite math problems! Together, you and Richard will uncover three problem-solving strategies that can help you have a positive impact on others — and on society. The three strategies will also help us answer the Cornerstone question, "What is knowledge?", and taken further, "What do we do with our knowledge?"

ABOUT DR. RICHARD HOSHINO

Richard, a Mathematics Tutor, is the 2017 recipient of the Adrien Pouliot Award, awarded by the Canadian Mathematical Society to celebrate "significant and sustained contributions to mathematics education."
